23 the payment of the direct costs of providing the level I and level II  
24 accreditation courses and materials.

25 (m) All administrative costs associated with the level I and level  
26 II accreditation programs shall be paid out of the workers' compensation  
27 cash fund in accordance with appropriations made pursuant to section

1 8-44-112 (7).

2 (n) The director shall contract with the medical school of the  
3 university of Colorado for the services of a medical director to advise the  
4 director on issues of accreditation, impairment rating guidelines, medical

15 insurance carrier nor a self-insured employer or injured worker shall be  
16 liable for costs incurred for an impairment evaluation rendered by a

8 counties of the state.

9 (q) The division is authorized to accept moneys from any  
10 governmental unit as well as grants, gifts, and donations from individuals,

12 donation may be accepted by the division if it is subject to conditions  
13 which are inconsistent with this article or any other laws of this state or  
14 which require expenditures from the workers' compensation cash fund  
15 which have not been approved by the general assembly. All moneys  
16 accepted by the division shall be transmitted to the state treasurer for  
17 credit to the workers' compensation cash fund.

18 (r) (I) This subsection (3.6) is repealed, effective September 1,

19          **43-1-136. Statewide transit pass exploratory committee -**  
20      **legislative declaration - definitions.** (1) (a) The general assembly  
21      hereby finds and declares that:

22           ~~(a)~~ (I) Over-reliance on personal passenger vehicles for  
23      transportation contributes to poor air quality and climate change and has  
24      a negative economic impact on families in the state;

25           (II) (A) Nationwide, the number of jobs within the typical  
26      commute distance for residents in major metropolitan areas has declined  
27      over time according to a report by the Brookings Institution titled "The

1 Growing Distance Between People and Jobs in Metropolitan America";

2 (B) Coloradans drive more miles per person than they used to, in  
3 part due to stress on transportation infrastructure and increasing  
4 household costs; and

5 (C) Since 1981, per capita vehicle miles traveled in Colorado have  
6 risen by over twenty percent according to data from the federal highway  
7 administration;

8 (III) High transportation costs impact low-income households in  
9 particular, with households making less than forty thousand dollars per  
10 year in the western United States spending over twenty-four percent of  
11 their income on transportation, when spending more than fifteen percent  
12 of income on transportation is considered cost burdened, according to  
13 data from the bureau of labor statistics consumer expenditure surveys;

14 (IV) (A) In addition to economic impacts, the increase in vehicle  
15 traffic has an environmental impact;

16 (B) The United States environmental protection agency has  
17 classified the Denver metro/north front range area as being in severe  
18 nonattainment for ozone and ground level ozone, which has serious  
19 impacts on human health, particularly for vulnerable populations;

20 (C) According to the greenhouse gas pollution reduction roadmap,  
21 published by the Colorado energy office and dated January 14, 2021, the  
22 transportation sector is the single largest source of greenhouse gas  
23 pollution in Colorado;

24 (D) Nearly sixty percent of the greenhouse gas emissions from the  
25 transportation sector come from light-duty vehicles, which constitute the  
26 majority of cars and trucks that Coloradans drive every day;

27 (E) As part of the greenhouse gas pollution reduction roadmap, a

1 strategic action plan to achieve legislatively adopted targets of reducing  
2 greenhouse gas pollution economy-wide by fifty percent below 2005  
3 levels by 2030 and ninety percent by 2050, the state committed to  
4 reducing emissions from the transportation sector by forty-one percent by  
5 2030 from a 2005 baseline; and

6 (F) The greenhouse gas transportation planning standard adopted  
7 by the transportation commission in 2021 set a target to reduce  
8 transportation greenhouse gas emissions through the transportation  
9 planning process by one million five hundred thousand tons by 2030;

10 (b) The general assembly further finds and declares that:

11 (I) The environmental and economic issues that result from  
12 increased reliance on passenger vehicles and an increase in the number  
13 of miles traveled per person is a matter of statewide concern;

14 (II) One of the key findings of the greenhouse gas pollution  
15 reduction roadmap is that reducing growth in driving is an important tool  
16 to achieve the state's climate goals and that expanding public transit is an  
17 important near-term action that can help achieve those goals; and

18 (III) It is the state's responsibility to support programs that reduce  
19 the growth in driving and expand public transit.

20 **SECTION 74. Act subject to petition - effective date.** This act  
21 takes effect at 12:01 a.m. on the day following the expiration of the  
22 ninety-day period after final adjournment of the general assembly; except  
23 that, if a referendum petition is filed pursuant to section 1 (3) of article V  
24 of the state constitution against this act or an item, section, or part of this  
25 act within such period, then the act, item, section, or part will not take  
26 effect unless approved by the people at the general election to be held in

- 1 November 2026 and, in such case, will take effect on the date of the
- 2 official declaration of the vote thereon by the governor.
