28 “(10) A husband and wife who file separate returns for a taxable year may each claim a share
29 of the tax credit that would have been allowed on a joint return in proportion to the contribution
30 of each. However, a husband or wife living in a separate principal residence may claim the tax

26 dealer certification.

27 “(e) If the State Department of Energy finds that an alternative energy device can meet the
28 standards adopted under ORS 469B.103, the Director of the State Department of Energy may issue

33 “(13) A category two alternative energy device, if the equipment or other property that com-
34 prises the category two alternative energy device is the basis for an allowed credit for a category
35 one alternative energy device under ORS 316.116;

36 “(14) A category one alternative energy device, if the equipment or other property that com-
37 prises the category one alternative energy device is also the basis for an allowed credit for a cate-
38 gory two alternative energy device under ORS 316.116; or

39 “(15) Any other device identified by the State Department of Energy. The department may adopt
40 rules defining standards for eligible and ineligible devices under this section.

41 “**SECTION 32.** ORS 469B.115 is amended to read:

42 “469B.115. (1) [*Except for alternative fuel vehicles or related equipment,*] In order to carry out
43 ORS 469B.100 to 469B.118, the State Department of Energy shall develop performance assumptions
44 and prescriptive measures to determine the eligibility and tax credit amount for alternative energy
45 devices constructed or installed in a dwelling.

1 “(2) The department shall use the performance assumptions and prescriptive measures to develop
2 information for the Department of Revenue to use to allow taxpayers to determine their eligibility
3 and tax credit amount. The State Department of Energy may review this information on an annual
4 basis to take into consideration new technology and performance assumption accuracy.

5 “(3) For the purpose of determining the first year energy yield of an alternative energy device,
6 the department shall use the following assumptions and test standards:

7 “(a) Solar Rating and Certification Corporation [*standard*] **standards** SRCC 100, [200] **300**,

10 **under ANSI/AHRI/ASHRAE/ISO Standard 13256-1** test at 50 degrees **Fahrenheit** entering water
11 temperature, as appropriate. The testing requirements under this paragraph [*shall*] **do** not apply to
12 an owner-built alternative energy device.

13 “[*b*] For an alternative energy device used as a source for domestic water heating energy, a hot
14 water use of 75 gallons per day at 120 degrees Fahrenheit. The load of 75 gallons per day at 120 de-
15 grees Fahrenheit shall be achieved by including conservation measures in the construction or installa-
16 tion of the alternative energy device.]

17 “[*c*] (b) For an alternative energy device used as a source for space heating or cooling, the
18 heating or cooling energy load as determined by a heat loss or gain calculation performed in ac-
19 cordance with the methods established by the American Society of Heating, Refrigerating and Air-
20 Conditioning Engineers. Except for an owner-built or site-built system, an alternative energy device
21 used as a source for domestic hot water heating must meet the SRCC OG 300 systems test or comply
22 with comparable requirements as determined by the department.

23 “[*d*] (c) For an alternative energy device used as a source for electrical energy, the first year
24 energy yield shall be based upon the electrical energy load of the dwelling as determined according
25 to the procedure established by the department.

26 “[*e*] (d) For an alternative energy device used as a source for swimming pool, spa or hot tub
27 heating, the first year energy yield shall be based on the heating load of the swimming pool, spa or
28 hot tub as determined according to the procedure established by the department.

29 “**SECTION 33.** ORS 469B.118 is amended to read:

30 “469B.118. (1) Upon the Department of Revenue’s own motion, or upon request of the State De-
31 partment of Energy, the Department of Revenue may initiate proceedings for the forfeiture of a tax
32 credit allowed under ORS 316.116 [*or 317.115*] if:

33 “(a) The verification was fraudulent because of a misrepresentation by the taxpayer [*or investor*
34 *owned utility*];

35 “(b) The verification was fraudulent because of a misrepresentation by the contractor;

36 “(c) [*In the case of an alternative energy device other than an alternative fuel vehicle or related*
37 *equipment,*] The alternative energy device has not been constructed, installed or operated in sub-
38 stantial compliance with the requirements of ORS 469B.100 to 469B.118; or

39 “(d) The taxpayer [*or investor owned utility*] failed to consent to an inspection of the constructed
40 or installed alternative energy device by the State Department of Energy after a reasonable, written
41 request for such an inspection by the State Department of Energy. [*This paragraph does not apply*
42 *to an alternative fuel vehicle or to related equipment.*]

43 “(2) Pursuant to the procedures for a contested case under ORS chapter 183, the Director of the
44 State Department of Energy may order the revocation of a contractor certificate issued under ORS
45 469B.106 if the director finds that:

1 “(a) The contractor certificate was obtained by fraud or misrepresentation by the contractor
2 certificate holder;

3 “(b) The contractor’s performance for the alternative energy device for which the contractor is
4 issued a certificate under ORS 469B.106 does not meet industry standards; or

5 “(c) The contractor has misrepresented to the customer either the tax credit program or the
6 nature or quality of the alternative energy device.

7 “(3) If the tax credit allowed under ORS 316.116 [or 317.115] for the purchase, construction or
8 installation of an alternative energy device is ordered forfeited due to an action of the taxpayer [or
9 investor owned utility] under subsection (1)(a), (c) or (d) of this section, all prior tax relief provided
10 to the taxpayer [or investor owned utility] shall be forfeited and the Department of Revenue shall
11 proceed to collect those taxes not paid by the taxpayer [or utility] as a result of the tax credit relief
12 under ORS 316.116 [or 317.115].

13 “(4) If the tax credit for the construction or installation of an alternative energy device is or-
14 dered forfeited due to an action of the contractor under subsection (1)(b) of this section, the De-
15 partment of Revenue shall proceed to collect, from the contractor, an amount equivalent to those
16 taxes not paid by the taxpayer [or investor owned utility] as a result of the tax credit relief under
17 ORS 316.116 [or 317.115]. As long as the forfeiture is due to an action of the contractor and not to
18 an action of the taxpayer [or utility], the assessment of such taxes shall be levied on the contractor
19 and not on the taxpayer [or utility]. Notwithstanding ORS 314.835, the Department of Revenue may
20 disclose information from income tax returns or reports to the extent such disclosure is necessary
21 to collect amounts from contractors under this subsection.

22 “(5) In order to obtain information necessary to verify eligibility and amount of the tax credit,
23 the State Department of Energy or its representative may inspect an alternative energy device that
24 has been purchased, constructed or installed. The inspection shall be made only with the consent
25 of the owner of the dwelling. Failure to consent to the inspection is grounds for the forfeiture of
26 any tax credit relief under ORS 316.116 [or 317.115]. The Department of Revenue shall proceed to
27 collect any taxes due according to subsection (4) of this section. For electrical generating alterna-
28 tive energy devices, the State Department of Energy may obtain energy consumption records for the
29 dwelling the device serves, for a 12-month period, in order to verify eligibility and amount of the tax
30 credit.

31 “**SECTION 34.** ORS 469B.991 is amended to read:

32 “469B.991. (1) The Director of the State Department of Energy may impose a civil penalty
33 against a contractor if a contractor certificate is revoked under ORS 469B.118. The amount of the
34 penalty shall be equal to the total amount of tax relief estimated to have been provided under ORS
35 316.116 [or 317.115] to the contractor or to purchasers of the system for which a contractor’s cer-
36 tificate has been revoked.

37 “(2) The State Department of Energy may not collect any of the amount of a civil penalty im-
38 posed under subsection (1) of this section from a purchaser of the system for which the final certif-
39 icate has been revoked. However, the Department of Revenue shall proceed under ORS 469B.118 (3)
40 to collect taxes not paid by a taxpayer if the tax credit is ordered forfeited because of that
41 taxpayer’s fraud or misrepresentation under ORS 469B.118 (1)(a).

42 “(3) Civil penalties under this section shall be imposed as provided in ORS 183.745.

43 “(4) A penalty recovered under this section shall be paid into the State Treasury and credited
44 to the General Fund and is available for general governmental expenses.

45 “**SECTION 35.** ORS 314.752 is amended to read:

1 “314.752. (1) Except as provided in ORS 314.740 (5)(b), the tax credits allowed or allowable to
2 a C corporation for purposes of ORS chapter 317 or 318 shall not be allowed to an S corporation.
3 The business tax credits allowed or allowable for purposes of ORS chapter 316 shall be allowed or
4 are allowable to the shareholders of the S corporation.

5 “(2) In determining the tax imposed under ORS chapter 316, as provided under ORS 314.734, on
6 income of the shareholder of an S corporation, there shall be taken into account the shareholder’s
7 pro rata share of business tax credit (or item thereof) that would be allowed to the corporation (but
8 for subsection (1) of this section) or recapture or recovery thereof. The credit (or item thereof), re-
9 capture or recovery shall be passed through to shareholders in pro rata shares as determined in the
10 manner prescribed under section 1377(a) of the Internal Revenue Code.

11 “(3) The character of any item included in a shareholder’s pro rata share under subsection (2)
12 of this section shall be determined as if such item were realized directly from the source from which
13 realized by the corporation, or incurred in the same manner as incurred by the corporation.

14 “(4) If the shareholder is a nonresident and there is a requirement applicable for the business
15 tax credit that in the case of a nonresident the credit be allowed in the proportion provided in ORS
16 316.117, then that provision shall apply to the nonresident shareholder.

17 “(5) As used in this section, ‘business tax credit’ means a tax credit granted to personal income
18 taxpayers to encourage certain investment, to create employment, economic opportunity or incentive
19 or for charitable, educational, scientific, literary or public purposes that is listed under this sub-
20 section as a business tax credit or is designated as a business tax credit by law or by the Depart-
21 ment of Revenue by rule and includes but is not limited to the following credits: ORS 285C.309

14 production development contributions made by the taxpayer during the tax year to the Oregon
15 Production Investment Fund established under ORS 284.367.
16 “(2)(a) The Department of Revenue shall, in cooperation with the Oregon Film and Video Office,

18 manner that it determines is best suited to maximize the return to the state on the sale of tax credit
19 certifications and shall announce a reserve bid prior to conducting the auction. The reserve amount
20 shall be at least 95 percent of the total amount of the tax credit. Moneys necessary to reimburse

38 in which certification is made.
39 “(b) The Oregon Film and Video Office and the department are not liable, and a refund of a
