Analysis by the Legislative Reference Bureau

This bill requires the state superintendent of public instruction to develop a curriculum for a comprehensive firearm education course for high school pupils. The bill requires the state superintendent to jointly develop the curriculum with the Department of Natural Resources, a law enforcement agency, and an organization that specializes in firearm safety or that certifies firearm instructors.

The bill allows a school board or operator of an independent charter school to offer high school pupils a comprehensive firearm education course consistent with the curriculum the state superintendent develops or a hunter safety course modeled on DNR's hunter education program. Under the bill, if the school board or operator offers such a course, the course must be taught or supervised by an individual who demonstrates proof of training in firearm safety.

The bill specifies that a school board that elects not to offer a firearm education or hunter safety course must adopt a resolution making that election.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
